*Director of
Conservation & Science*

The Sponsor Board of Directors has approved the establishment of a restricted fund to receive donations of cash and other property designated for support of the public art project known as BIRDLINK, an interactive native-plant sculpture (the "Project"), and to make disbursements in furtherance of the Project's mission to support urban and migratory birds, to educate people about the challenges facing urban bird populations, and to enhance the quality of life in neighborhoods with the greening of urban space that engages communities in the importance of sharing urban space with nature.

Sincerely,

Kathryn Heintz
Executive Director

Anina Gerchick
BIRDLINK Director/Designer
